PAINTS, PRIMERS AND SPECIALISED COATINGS

## Case Study: Flourescent Paint Project 2016

**Project: Final piece from the Art & Design Foundation Diploma Course**

**Products used: Flourescent Paint**

**Product Functions: A high visibility paint which is effective in daylight or under lights at night to identify hazards or safety equipment such as fire extinguishers, skips and exits.**

**Ideal for use on bicycles, skips, bollards, fishing floats, bridges, signs, ships etc. Also used for theatrical effects.**

**Project Completed: Summer 2017**

COVERING OUR CUSTOMERS' NEEDS SINCE 1908
